

## Daniel Monte Input List

- Guitar Mono - Amp with mic (needs power)
- Bass Mono - DI Box (needs power)
- 3 Vocal Mics (1 lead vox, 2 backing vox)
- 2 boom stands (for backing vox), 1 straight stand (for lead)
- L & R XLRs for stereo tracks
- Violin - DI Box (hi-cut with reverb please)
- Drum kit fully mic'd up
- Roland Drum Pad (DI)

We will be using in-ears (we provide) so you will also receive Daniel's lead vocal as a XLR to be set as LINE input (We are feeding Daniel's mic into our rig so the band can hear the vocals properly, and bussing it separate to you)  
 - With the use of in-ears, monitors are still needed (we are just receiving lead vox, tracks and click)
